

Shapes – BOOK 7 – LEVEL 0

Activity 1: Make photocopies of the following two pages. Each learner needs a set as well as crayons and scissors. Get the learners to first trace the shape and then to cut them out. Observe their fine motor skills, pencil control and cutting ability.

Activity 2: Multimedia poster: Give each learner a large poster. They can now build pictures with the shapes that they have made in activity 1 e.g. a house.
